## ABOUT CHEF DRAKE

With over two decades of culinary experience, Chef Drake has established himself as a master of Southern Cuisine and a creative interpreter of Native American culinary traditions. Experience Chef Drake's umami delights as his culinary experiences extend beyond the Southern landscape where he draws inspiration from Asian flavor profiles and techniques, seamlessly blending these with Southern Comfort food.

## HONORING THE ROOTS

In 1906, Gino's great-grandfather, — an Italian immigrant— founded the Modenese Society, one of the oldest mutual aid societies in the country.

Today, Gino carries that spirit forward in a modern way—and from that legacy, The Sheahen was born.

In a world that feels increasingly disconnected, The Sheahen is rooted in rebuilding local community—creating space for connection, support, and growth.

Join us as we celebrate tradition reimagined!
